Profile

I am Information Technology student at ANITS. I have a strong interest in backend development, AI systems, and solving real-world problems. I have practical experience in Java, Python, and full-stack web technologies. Experienced in competitive coding, hackathons I have created projects in AI, IoT, and RAG Agents. I constantly work on improving my coding and system design skills for important roles in software.

Education

Anil Neerukonda Institute of Technology & Sciences, Visakhapatnam

B. Tech, Information Technology

2022 - 2026

9.17/10 CGPA

Narayana Jr College, Visakhapatnam

Intermediate, MPC

2020 - 2022

810/1000 Marks

Experience

Systecks | Python Developer

May 2022-June 2022

- Delivered 3 fully functional modules within 4 weeks

Projects

Spark – Coding & Contest Platform | React.js, Node.js, Express, MongoDB |

May 2025

- Designed and developed an interactive coding platform for students to solve algorithmic problems and participate in live contests.

Outcomes: Enhance Increased coding engagement on campus, provided a self-paced practice environment, and empowered student clubs to host professional-level contests effortlessly.

Code-Sense | Python, FastAPI, RAG, FAISS, BM25, Gemini API | Link

Aug 2024

- Designed and implemented a production-ready Retrieval-Augmented Generation (RAG) system for intelligent codebase querying using hybrid retrieval (BM25 + FAISS).
- Built an end-to-end pipeline for repository indexing, AST-aware code chunking, semantic embeddings, and context-aware answer generation using Google Gemini LLM.

Outcomes: Built a low-latency, citation-grounded RAG system with hybrid BM25–FAISS retrieval, AST-aware chunking, and embedding-based reranking, enabling high-precision, multi-repository code intelligence with production-grade scalability.

Skills

Languages and Libraries: Java, SpringBoot, SQL, Python, Scikit-learn, RoboFlow, .NET, FAISS

Web Development: HTML, CSS, JavaScript, React Js, Node Js.

Tools and AI: Git, GitHub, REST APIs, IOT, RAG.

Certifications

- Gitam GDSC 24 Hour Hackathon
- Miracle MeanHack 24 Hour Hackathon
- Code-Bounty Coordination

Achievements

2nd Place – SEO Hackathon

Department of Computer Science & Engineering, ANITS

– July 2025

- Secured **2nd position** in a department-level SEO Optimization Hackathon and won a cash prize of for excellence in technical SEO and web optimization.

Positions Of Responsibility

Coding Club

August, 2024 – Present

President

Anil Neerukonda Institute of Technology & Sciences

- Currently serving as President of the Coding Club IT at ANITS. Organized over 10 events promoting competitive coding, achieving a 90% participation success rate.
