WORK EXPERIENCE

OASIS INFOBYTE

Internship

1st May 2024 - 31 May 2024

I worked as an intern at Oasis Infobyte, where I gained hands-on experience in web development and programming. During my internship, I've worked on various projects, enhancing my skills in coding and problem-solving.

EDUCATION

Anil Neerukonda Institute of Technology and Sciences

Bachelor of Technology in Information Technology - 7.28

November 2022 - Expected 2026

Narayana jr college(Intermediate)

MPC – 82%

May 2018 - May 2020

Narayana School of Education

SSC – 80%

2017 - 2018

PROJECTS

Pregnancy Health Planner

A simple Pregnancy Tracker that supports women throughout pregnancy, featuring a report summarizer, health tips, and fields to track weight, BP, and temperature for monitoring the baby's growth.

3-D Anatomy

An interactive application developed using the Unity engine, showcasing detailed 3D models of all major parts of the human body. It allows users to explore and learn about the body's anatomy in a virtual, immersive environment.

Library Management System

Created a robust SQL-based database system for the State Town Library, enhancing book circulation, client/staff management, and branch coordination, showcasing my database design and SQL scripting skills.

Netflix Login Page

I developed a Netflix login page clone using HTML and CSS, focusing on replicating the original's user-friendly design and responsiveness. This project showcased my skills in creating visually appealing and interactive web forms, ensuring compatibility across various devices.

SKILLS

Programming Languages:

- SQL: Experienced in relational database management, with skills in creating tables and crafting efficient queries
- Python: Proficient in Python fundamentals, including syntax, data structures, and basic programming concepts
- C: Basic understanding of procedural programming, functions, and control structures.
- Proficient in the basics of web development, including HTML for structuring web pages, CSS for styling and layout, and JavaScript for DOM manipulation and simple scripting.

CERTIFICATE

Google IT Automation With Python - Coursera

Software engineer Certificate – Hackerrank

CS50: Introduction to Computer Science – Harvard University
